

DELTA POLL

Guildford Constituency Survey

Deltapoll interviewed a representative sample of 501 adults aged 18+ across the political constituency of Guildford by telephone on 28th November – 2nd December 2019. Data were weighted to the profile of the eligible population living in the constituency.

Deltapoll is a member of the British Polling Council and abides by its rules.

www.britishpollingcouncil.org

Eligible population:	Guildford adults aged 18+
Data collection method:	Telephone, random digit dialling from data bases of landlines and mobiles known to be resident in the constituency.
Sample size:	501
Fieldwork dates:	28 th November – 2 nd December 2019
Date weighting:	Data were weighted to the profile of all adults aged 18+ in the political constituency of Guildford. Data were weighted to the following targets: <ul style="list-style-type: none">- Gender- Age- Ethnicity- Ward- A past vote weight target derived by averaging the actual shares of the vote obtained by each party at the 2017 General Election with the recalled shares for each party collected on this poll.- 2016 EU referendum
Weighting target sources:	Office for National Statistics data. General Election 2017 result. Constituency estimates for 2016 EU referendum by Dr Chris Hanretty.
Margins of error:	Because only a sample of the full population was interviewed, all results are subject to margin of error, meaning that not all differences are statistically significant. For example, in a question where 50% (the worst case scenario as far as margin of error is concerned) gave a particular answer, with a sample of 500 it is 95% certain that the 'true' value will fall within the range of 4.2% from the sample result. Subsamples from the cross-breaks will be subject to higher margin of error, conclusions drawn from cross-breaks with very small sub-samples should be treated with caution.
Weighting for turnout:	Deltapoll asks respondents to say how likely it is that they will go and vote in a new general election using an eleven-point scale where 10 means they would be absolutely certain to vote and 0 means they would be certain not to vote.

DELTA POLL

	<p>We then weight people by their anticipated turnout. If someone is 10/10 certain to vote, they are given a weight of 1.0. If someone is 9/10 certain to vote they are given a weight of 0.9 etc</p>
Voting intention:	<p>Those certain not to vote (0) were excluded from vote intention calculations.</p> <p>Those who say they will vote are asked to say which party and candidate they will support in the General Election on December 12th. Those who Don't know or Refuse to answer are excluded from the vote intention calculation.</p>
Questions:	<p>All data tables shown in full below, in order and wording put to respondents, including but not limited to all tables relating to published data and all relevant tables preceding them.</p> <p>Tables for demographic questions might not be included but these should be clear from the cross-breaks on published tables.</p> <p>In all questions where the responses are a list of parties, names or statements, these will typically have been displayed to respondents in a randomising order.</p>

Guildford Election Campaign Poll - November/December 2019

Telephone fieldwork : 28th November to 2nd December 2019

Absolutes/col percents

Table 8

Q1. As you may know, a General Election will be held on Thursday 12th December. On a scale of 0 (certain NOT to vote) to 10 (absolutely certain to vote), how likely are you to vote in the general election on December 12th? Please use a scale of 0-10, where 0 means you are certain NOT to vote and 10 means you are CERTAIN to vote. You can, of course, give any mark in between.

Base: All respondents
